Which Frame Fits Your Print?

Most printable art is sold in the A-series (A5 through A1) or in US inch sizes, and the two systems do not line up. This sheet puts both side by side so you can buy a frame once rather than twice.

The short version: print at 100% scale, never 'fit to page', or the proportions shift and the print no longer matches the frame it was made for. If your printer insists on a margin, print on the next size up and trim to the crop marks.

A mount board is the cheapest upgrade available. It gives the artwork breathing room, makes a smaller print carry the visual weight of a larger one, and lets you put different print sizes inside matching frames – which is what makes a gallery wall look deliberate.

- ☐ Check whether your print is A-series or inches
- ☐ Print at 100% scale, not 'fit to page'
- ☐ Measure the frame's opening, not its outer edge
- ☐ Consider a mount for anything A4 or smaller
- ☐ Keep frames matching, vary the prints

A-Series Sizes

More Free Printables

If this was useful, there are more free printables — no email required — at gabeocreative.com/free-printables.

For the full explanation of how frame sizes, mounts and print scaling work together, see the frame sizes guide on the blog.

And if you are hanging a group rather than a single piece, the gallery wall layout guide covers spacing, height and the two measurements that actually matter.

A TINY FAVOUR

Thank You

Thank you so much for your purchase — it genuinely means the world, and I hope your new printable helps you feel a little more organised.

If you have a spare moment, a quick review would mean more than you know — it helps other people discover these printables.

Have a question, or something not quite right? Please get in touch first — I am always happy to help and want you to truly love what you downloaded.
